PEPPA Framework for the Introduction and Evaluation of APN Roles

1. Define patient population and describe current model of care
2. Identify stakeholders and recruit participants
3. Determine need for a new model of care
4. Identify priority problems and goals to improve model of care
5. Define new model of care and APN role - Stakeholder consensus about the “fit” between goals, new model of care & APN
6. Plan implementation strategies - Identify outcomes, outline evaluation plan and collect baseline data - Identify role facilitators and barriers; stakeholder awareness of role; APN education; administrative support and resources; regulatory mechanisms, policies, and procedures
7. Initiate APN role implementation plan
8. Evaluate APN role and model of care
9. Long-term monitoring of the APN role and model of care

ROLE OF NURSING PROFESSION AND APN COMMUNITY
- Define basic, expanded, specialized and advanced nursing roles and scope of practice
- Define standards of care and APN role competencies
- Define a model of advanced practice
- Establish APN education programs
- Evaluate APN outcomes

Provide education, resources, and support
Develop APN role policies and protocols
Begin role development and implementation
